Grocery Store

A **grocery store** or **grocery shop** or simply **grocery** is a store that primarily retails a general range of food products, which may be fresh or packaged. In everyday U.S. usage, however, "grocery store" is a synonym for supermarket, and is not used to refer to other types of stores that sell **groceries**. In the UK, shops that sell food are distinguished as grocers or grocery shops (though in everyday use, people usually use either the term "supermarket" or a "corner shop" or "convenience shop").

Larger types of stores that sell groceries, such as supermarkets and hypermarkets, usually stock significant amounts of non-food products, such as clothing and household items. Small grocery stores that sell mainly fruit and vegetables are known as greengrocers (Britain) or produce markets (U.S.), and small grocery stores that predominantly sell prepared food, such as candy and snacks, are known as convenience shops or delicatessens.

A typical **grocery** store is a retail store for households' kitchen requirements such as pulses, rice, wheat, spices, etc, household plastics mugs, brush, buckets, etc and other household requirements such as detergent, sanitizing liquids, soaps, toothpaste, bathroom, and toilet cleaners, etc.

Need of Grocery Store:-

Everybody needs to eat, which is why grocery stores are an essential part of any community and the US grocery market is worth three-quarters of a trillion dollars, and growing. You can start your own grocery store and grab a share of that huge market while providing a valuable service to friends and neighbours.
